The Missionary from Tennessee

Sister Sarah Pick was born in Tennessee in 1884. Raised in a devout Christian family, she dedicated her life to serving others. In 1909, she embarked on a missionary journey to Europe, where she spent several years providing medical care and spiritual guidance.

When World War I broke out, Sister Pick remained in Europe, volunteering in hospitals and assisting the wounded. Her tireless efforts and compassionate nature earned her the respect and admiration of both Allied and German soldiers alike.

A Fateful Meeting in Berlin

In 1932, fate brought Sister Pick to Berlin, the heart of the Nazi regime. As she witnessed the rising tide of nationalism and anti-Semitism, a sense of unease began to creep into her heart.

One evening, while attending a gathering of international Christian leaders, Sister Pick found herself seated next to Adolf Hitler. Despite her initial fear

and trepidation, she was struck by Hitler's charismatic presence and his intense blue eyes.

A Conversation with the Devil

As the evening progressed, Hitler turned his attention to Sister Pick. He inquired about her work and her experiences in Germany. To her surprise, Hitler spoke eloquently about his personal beliefs and his vision for a unified Germany.

Sister Pick was torn between her horror at Hitler's past actions and her admiration for his passion and determination. She listened intently as he outlined his plans to restore Germany to its former glory.

A Seeds of Doubt

As the conversation drew to a close, Sister Pick found herself wrestling with a profound moral dilemma. On the one hand, she knew that Hitler was responsible for the deaths of countless innocent people. On the other hand, she couldn't help but be moved by his words and his promise of a better future for Germany.

In the days and weeks that followed, Sister Pick grappled with her conscience. She prayed earnestly for guidance and sought counsel from fellow missionaries and Christian leaders.

A Public Defense

To the astonishment of many, Sister Pick eventually made a controversial decision. In 1934, she published an article in the American Christian Century magazine, in which she publicly defended Hitler and his regime.

Sister Pick argued that Hitler was a misunderstood leader who was genuinely committed to the well-being of the German people. She claimed that the Nazi government had brought order and prosperity to a country that had been ravaged by war and economic depression.

A Storm of Controversy

Sister Pick's article ignited a firestorm of controversy. She was denounced by many in the international community and even by some within her own church. Accusations of naivety, willful blindness, and even complicity in Hitler's crimes were leveled against her.

Undeterred, Sister Pick remained steadfast in her belief that Hitler was a good man with noble intentions. She continued to correspond with him, offering him spiritual guidance and support.

The Unanswered Questions

Sister Sarah Pick's relationship with Adolf Hitler remains one of the most enigmatic and controversial chapters in history. To this day, historians and scholars debate the motivations behind her actions and the reasons for her unwavering defense of the Nazi regime.

Some argue that Sister Pick was genuinely deceived by Hitler's charisma and his promises of peace and prosperity. Others suggest that she was driven by a misguided belief that she could influence Hitler for the good or that she feared the consequences of speaking out against him.

Whatever her motives, Sister Pick's unwavering support for Hitler remains a haunting reminder of the power of evil to deceive and corrupt even the most well-meaning of individuals.

A Legacy of Contradiction

Sister Sarah Pick's life was a paradox. She was a devout Christian who dedicated her life to helping others, yet she chose to defend a man who was responsible for the deaths of millions. She was a woman of compassion and kindness, yet she turned a blind eye to the atrocities being committed by the Nazi regime.

In the end, Sister Sarah Pick's legacy is a complex and contradictory one. She is remembered both as a courageous humanitarian and as a misguided apologist for one of the darkest chapters in human history.

The story of Sister Sarah Pick Win With Adolf is a cautionary tale about the dangers of hatred, prejudice, and the seductive power of evil. It reminds us that even the most well-intentioned individuals can be deceived by the promises of false prophets and that the fight against tyranny requires vigilance and unwavering commitment to the principles of justice and compassion.
